INTRODUCTION

We have started the journey almost 11 years ago. Company has built its empire on three pillars i.e. QUALITY, SERVICE AND PRICE. We are not claiming of number one position in this field but one thing we are sure of that there are very few players in the market who works with the sharpness that we work.

Each and every product is filtered and checked at various levels before it delivers to our clients. We always make sure that our products give you better business and try to maintain the monopoly of the product so that your margins are not compromised at any levels.

We are majorly dealing in porcelain tiles and supplies mainly to UK and supplies to the other parts of the world. We have office in UK to provide better support and service to our clients in all the segments from ordering to logistics. Company representatives in the UK are always updated with taste and requirements of the market and we try to provide you the best suitable material for your market.

We provide rates by keeping the international markets in mind to make sure that you will not pay even a single penny extra for you purchase.

URBAN GRIGIO

900x1800mm | 36x72" | 3x6ft

It is a conventional rectangular size to get along perfectly with any space. The reformed edges, merest width grout joints can be used which do not interrupt the continuity of the surface and guarantee a great refinement.

CHARACTERISTIC	TEST METHOD	STANDARD VALUE	VALUE
Resistance of Staining	Is-13630-8	Class I Min.	Class Ⅱ
Resistance of Household Chemicals	Is-13630-8	Class AA Min.	Class AA
Resistance to Acids & Alkalis	Is-13630-8	According to Manufacturing Process	Resistance
Slip Resistance	150-13006/EN1444 Group BIA	As pr Mfg.	>0.40

PACKING DETAIL

No.	Size	Thickness (approx.)	Pieces/Box	Area/Box	Wt./Box(approx.)
01	1200x2400mm	9.0mm	1 pcs.	2.88 sq. mtr.	60 Kgs.
02	800x2400mm	9.0mm	2 pcs.	3.84 sq. mtr.	80 Kgs.
03	900x1800mm	9.0mm	2 pcs.	3.24 sq. mtr.	65 Kgs.
04	800x1600mm	9.0mm	2 pcs.	2.56 sq. mtr.	54 Kgs.
05	1200x1200mm	9.0mm	2 pcs.	2.88 sq. mtr.	60 Kgs.

SLAB LAYING INSTRUCTIONS

- Plaster the surface of the floor to be tiled smooth and complete the plastering and curing at least two hour prior to tiling.

■ Before fixing **SLAB**, lay them out in desired pattern and make sure that give acceptable blend of colour. Please not that certain amount of shade variation is inherent in the manufacture of a fully vitrified ceramic tile.
THE COMPANY WALL BEAR NO LIABILITY AFTER THE TILES ARE FIXED.

■ For fixing **SLAB**, we recommend the use of the tile fixing adhesive for best result. Also follow the tile fixing instructions provided along with adhesives.

■ For fixing **SLAB** on the floor using sand and cement follow the instructions given bellow:
- Use cement and sand mortar in the ratio of 1:4 add some water to create a consistent paste.
- Once the mixing has been completed do not add any further water to create a consistent paste.
- Apply a 20-30mm layer of bedding material over an area of 1 square meter at a time on the surface of the area. Apply a fine slurry to the back of the tile to ensure proper and dull bedding. press gently for even adherence at the back of the tile.
DO NOT USE IRON HAMMER OR SOME HEAVY MATERIAL TO PRESS THE TILES.

■ For fixing **SLAB** on dado, we recommend the use of adhesive. Please follow the manufacture's instructions for the same. We do not recommend the use of sand and cement for fixing on dado.

■ Mark and layout the tiles from the center of the area to be tile so that cut tiles. If any will be on the outer edges to words the walls.

■ The work size which we try to maintain for better technical performance is 1200x2400mm, 800x2400mm,900x1800mm, 800x1600mm, & 1200x1200mm on average. it is advisable to maintain a gap of 1mm to 3mm between every two tile to allow for possible expansion as per BIS/EN tolerance norms. This would give the coverage area as mentioned in the cartoon.

■ Complete the tile laying process by pressing the center of the **SLAB** firmly into place along the walls/floors.

■ Allow 3-4 days for bed curing. After this period fill the joints with grouts.

■ Fifteen minutes after finishing the grouting process, wipe off excess grout with a damp sponge and polish the tile with a soft and dry cloth for a clean surface. The tile can also be cleaned by mild acid(however hydrofluoric acid and its derivatives should not be used)

■ Please note that the company does not accept any liability in case of problems arising out of non-adherence to these fixing instructions.
